Joint Continuing Professional Development Event - Oct 2020**

***Preparing a Persuasive EOT Claim in the times of Pandemic,
based on FIDIC Forms of Contracts***

Preparation of a persuasive EOT claim that would withstand counter-arguments from the other party is a challenging task and especially so as the pandemic has caused many delays to contractors and subcontractors, works at the site. Starting With a brief on delays and disruptions, this presentation will explain the delays caused by COVID-19 and steps to be considered when claiming additional time in respect of those delay events, clauses of FIDIC contracts related to claims and extension of time, and how to select an appropriate method of analysis to discharge the Contractual obligation, provisions related contractual procedures for securing entitlement and the consequences in case notices are not served on time as well as the importance of establishing causation will be discussed.

Presenters:

Robert Burns BSc (Hons), MSc, LLM, MRICS, FICE, FCI Arb

Robert is a delay expert with years of experience in the construction industry. He is dual-qualified holding both engineering degrees as well as legal qualifications. Robert has been appointed as a delay expert in four differing disputes. He has provided expert witness assistance on several delay and disruption matters in various jurisdictions in the UK, Africa, the Middle East, and Asia.

Uditha Tharanga BSc (Hons), LLM, MRICS, MAIQS, FCI Arb

Uditha possesses years of experience in various building and civil engineering projects in the Middle East and Asia with wide exposure to different types of claims, alternative dispute resolution procedures inclusive of numerous commercial and contractual matters in administering various forms of contracts in diverse environments.
